THE WHIG PARTY OF THIS DAY. - To the can lid, calm thinking and reflecting person who has kept up with the progress of events for the last few years, it must be plainly visible that the party which once raised its banner high in the political heavens, and which was once respected because of the talents, and the generosity of its leaders, has degenerated from the high position which was secured to it by its numerical strength, and the possesion of wealth. The prophetic exclamation of the Sage of Marshfield, that the "second of November 1852" would witness "the demise of the whig party," has been verified, and instead of the long array of names celebrated for intellect and worth; Awful to think of! instead of the flunting banners inscribed stead of all this we say, we can see the disgraced names of the traitors Seward, Greely, Parker and others of the samoilk boldly flying from the main-mast of the whig ship now fast sinking into the depths of political oblivion. Instead of combatting for the perpetuation of principles, the scattered fragments of the once respectable party aim only to consolidate now for plundering purposes. To say that the whig party of this day are standing on any regular political platform, would be to say what the events of the past ten years positively contradict, and be making an assertion ed and every circumstance in the political | ry transactions of the day, will bear us out in \$500 is offered for the successful plan the assertion, yet as the drowning man will clutch at every straw, so do the still extinct remnants of the 'great defeated' scheme, and work and plan in order to the saccessful plan It is expected that each competitor will present three plans, ranging in the cost as follows, towit: \$59,000, \$75,000, \$100,000. These plans may be altogether different or merely enlargements of the same; and must be in the office of the association on or before the 10th of the association on or before the 10th of the same; body of their cherished party. FOR REEN'T OR SORE.

A NEW and singularly successful remedy for the cure of all Bilious diseases — Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousi ess, Irritability, Inflammations, Headache, Pains in the Breast, Side. Back, and Limbs, Female Coi plaints, &c., &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Prysicians, Professors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the eminent gentlemen to whom we are allowed to refer for these facts, are
PROF. VALENTINE MOTT, the distinguished Surgeon of New York City.

DOCT. A. A. HAYES, Practical Chemist of the Port of Boston, and Geologist for the State of Massachusetts.

IRA L. MOOKE, M. D., an eminent Surgeon and

Port of Boston, and Geologist for the State of Massachusetts.

Ira L. Mooke, M. D., an eminent Surgeon and Physician, of the City of Lowell, who has long used them in his extensive practice.

H. C. Southwick, Esq., one of the first mer chants in New York City.

C. A. Davis, M. D., Sup't and Surgeon of the United States Marine Hospital, at Chelsea, Mass.

Did space permit, we could give many hundred such names, from all parts where the Pills have been used, but evidence even more convincing than the certificates of these eminent public men is shown in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of

most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove as they have proved more purely remedial, and the Pills a surer more powerful antidote to disease than arry other medicine known to the world.

As it is frequently expedient that my medicine had the telegraphs of the curative of the curative than the provide medicine had the telegraph of the curative than the provident that my medicine had the telegraph of the curative treatment of the curative curative curative curative treatment of the curative cur

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of remedy without knowing its composition. I have supplied the accurate Formulæ by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Prayinges. If however, there should be as a local facility of the property there should be as a local facility. Practitioners in the United St. tes and British American Provinces. If however there should be any one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known. Their life consists in their mystery. I have no mysteries.

Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all mer, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects apon trial.

They operate by their powerful influence on the Internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease,

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions, see the wrapper on the Box.
